BIOLOGICAL ORANGES

Le arance biologiche Satyroi, sono prodotte da piante coltivate lungo le coste del sud della Calabria. Il gradevole sapore deriva da un caratteristico microclima mediterraneo e dal metodo di coltivazione degli agrumi e dal suolo e dall'aria salubre. Tutto ciò consente la produzione di agrumi ricchi di sapore e di ottima qualità, serviti a tavola come frutta fresca o come succo. Le varietà di arance Satyroi si distinguono in diverse caratteristiche, in particolare per pigmentazione della polpa e periodo di maturazione e raccolta.

Commercial information

PRODUCT NAME: ORGANIC ORANGES

ORIGIN: Calabria (Italy)

BOTANICAL VARIETIES: Navel, Whashington Navel, Tarocco, Moro, Biondo Comune, Valencia

BIOLOGICAL CLEMENTINES

Organic Satyroi Clementines are a juicy and refreshing fruit with a high sugar content, they are harvested from October to February and are completely seedless, or only in very small numbers. The fruits are rich in vitamins, have an almost spherical shape, slightly flattened at the poles, with a smooth skin and an intense orange color, which contains a juicy and aromatic pulp. They can be tasted fresh or to prepare juices, syrups, sorbets and jams or can be used in cosmetics, in the preparation of toning lotions and masks for the skin.

ORGANIC LEMONS

Satyroi organic lemons are grown along the Ionian and Tyrrhenian coast of the province of Reggio Calabria. The Verdello and Primofiore varieties express the typical fragrance and sweetness of the juice. The therapeutic properties of lemon are many and recognized as an antioxidant and detoxifier. Lemon was also frequently used in ancient times, as a condiment, for culinary combinations in dishes based on fish and rice and to make tasty drinks and tea.

ORGANIC ARTICHOKES IN OIL

In compliance with the brand, the artichokes are selected for their softness and degree of ripeness and only the tender and sweet heart of the artichoke is used with extra virgin olive oil in this typical Mediterranean preserve of Satyroi. Artichokes are rich in minerals such as potassium, phosphorus and calcium and vitamins. Firm, crunchy, with the full and characteristic taste of artichoke, they are perfect on their own as an aperitif or appetizer to enjoy them in all their goodness or as a side dish for light fish or white meat-based main courses.
